Question

Compare sessions by device category this month vs last month, and calculate the percentage change for each device type.

Answer

Sessions by Device Category Comparison

This month shows a decline across most device types:

- **Mobile** declined 22.3% (337 → 262 sessions)
- **Desktop** declined 47.7% (130 → 68 sessions) — the steepest drop
- **Tablet** increased 14.3% (7 → 8 sessions) — the only device type with growth

Overall, desktop saw a significant decline this month while mobile maintained higher absolute volume but also trended downward. Tablet traffic is minimal but showed slight growth.

Date Range, Sessions by Device Category

deviceCategory	dateRange	sessions
mobile	LastMonth	337
mobile	ThisMonth	262
desktop	LastMonth	130
desktop	ThisMonth	68
tablet	ThisMonth	8
tablet	LastMonth	7
