Question

Which traffic sources drove the most sessions last 30 days, and for each source calculate what percentage of their users bounced?

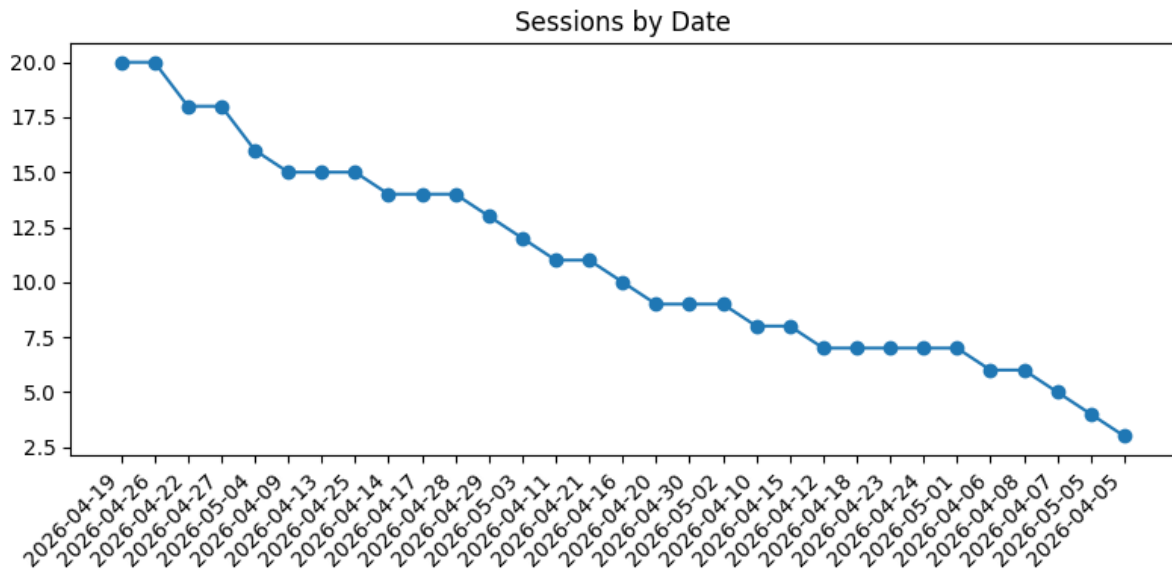

Answer

Organic Search dominated traffic with 293 sessions (86.7% of total), with a 67.24% bounce rate. Direct traffic was the second-largest source with 41 sessions (12.1% of total) but had a higher bounce rate of 90.24%, indicating visitors from direct URLs were more likely to leave without engaging. Referral traffic (2 sessions) and Organic Social (1 session) both had 100% bounce rates, while the single Unassigned session had a 0% bounce rate. Overall, the property received 338 sessions across all channels in the last 30 days.
